

“How to Implement a Budget for Your Practice”

By: Owen J. Dahl, FACHE, CHBC

How much money are you going to make this year? How much does it cost to see a patient? How much revenue do you get from each 99213 office visit? Your monthly financial statement when compared to your production when compared to last year when compared to the future – how do you make sense out of today and more importantly how do you prepare for tomorrow. Fee for service payments may be gone soon. Pay for performance is something to really think about. When we finish you should have a good financial plan for 2011 as well as being prepared for the many other financial situations and options beyond!
